General Meeting Information
College Township offers both in-person and virtual meeting attendance for all public meetings. To attend in-person, meetings will be held at 1481 E. College Avenue, State College PA, 16801, 2nd floor meeting room. To attend virtually, please see the information below.

To Attend the LIVE Meeting Via Zoom on Computer or Smart Phone:
- Click HERE to REGISTER for the meeting via Zoom. Once registered, you will receive a confirmation email containing information about joining the meeting.

To Attend the LIVE Meeting Via Phone:
- Dial +1 646 558 8656 ● Meeting ID: 892 9643 3446 ● Passcode: 067595

* Click here for detailed instructions on how to participate via zoom.

VIRTUAL PUBLIC COMMENTS: Please use the raised hand feature to participate. The moderator will recognize those with their hands raised (either by name or phone number).

WRITTEN PUBLIC COMMENTS: For specific Park and Recreation agenda items and for items not on the agenda, written public comments may be submitted in advance by emailing smeyers@collegetownship.org by noon the day of the meeting.

CALL TO ORDER:

ZOOM MEETING PROTOCOL:

OPEN DISCUSSION (ITEMS NOT ON THE AGENDA):

CONSENT AGENDA: CA-1 August 14, 2023 Meeting Minutes (Approval)

OLD BUSINESS: OB-1 Township Park Survey (Discuss/Approval)
OB-2 Fogleman Overlook (Continued Discussion)

NEW BUSINESS:
PARKS REPORTS: (Written reports received are emailed to all members the Wednesday prior to the meeting date)

STAFF INFORMATIVES:

OTHER MATTERS: OM-1 Memo from Ms. Sittler – Parks that have streams within the Township

ANNOUNCEMENTS:

UPCOMING MEETING: Monday, October 9, 2023 at 7:00 PM (if needed)

ADJOURNMENT:
CALL TO ORDER:
Mr. Moore called the meeting to order at 7:00 pm.

ROLL CALL:
Mr. Moore reviewed Zoom protocol as there were public participants via Zoom.

OPEN DISCUSSION:
- Ms. Sittler provided an informative for all committee members, particularly the one representing parks which facilitate streams, to be added to the next agenda.
- Status of Parks and Recreation Committee member replacement was discussed.
  - There was no update from Council.
  - Mr. Brokloff may consider filling out an application for the position. However, he doesn’t want to commit to something he would not be able to fulfill.
- Mr. Spoonamore plans to attend the Mt. Nittany Conservancy meeting as an observer as Ms. Kerner has not received direction from Council on whether being an active participant in Mt. Nittany Conservancy meetings creates a conflict of interest or not.
- Ms. Kerner has ordered an additional porta john to be placed in the Shale Pit area, as directed by Council.

CONSENT AGENDA:
- There was a brief discussion of some minor spelling changes to the minutes.

Ms. Matason moved to approve the minutes of the June 12, 2023 meeting as amended. Ms. Sittler seconded the motion. Motion carried.
OLD BUSINESS:
None presented.

NEW BUSINESS:

NB-1 Township Park Survey – Fogleman Overlook Draft
- Ms. Kerner introduced the topic and an original survey that may have been sent to residents surrounding the Fogleman Overlook Park. The draft survey provided in the meeting packet is very general and can be used to gather information pertaining to various parks throughout the Township.
- Mr. Brokloff stated that Stearns Crossing residents never received such a survey. It was determined that a draft Master Plan was developed and sent to most residents within a quarter mile radius of the Fogleman Overlook Park, asking them for input.
  - Mr. Brokloff informed the residents through their HOA email list and neighborhood Facebook page of Stearns Crossing that there has been some Township discussion recently about the park in their neighborhood. He concluded that of the 161 households in Stearns Crossing, 22 would like to use the draft Master Plan previously discussed, and 7 would like to see a new survey. He added that people whose home borders the park show the most concern for the park and amenities provided. Ms. Ambrose added that people residing further from the park are more concerned about traffic volume and speeding through the neighborhood.
- Mr. Moore questioned if a survey is required. Ms. Kerner stated that a survey is not required.
- There was a lengthy discussion of whether a survey was sent in the past, who it would have been sent to, if a Township survey should be distributed now, how it should be distributed. It was determined that the Township needs to manage expectations and should regenerate the draft Master Plan to be compliant with easements on the property and ask residents if they would like to see any additional amenities.
- Parking at Fogleman Overlook Park was discussed as well.

Ms. Smith moved to table the discussion of Fogleman Overlook Park. Ms. Sittler seconded. Motion carried unanimously.

- Mr. Moore discussed the draft park survey provided in the meeting packet and asked each member their opinion on the survey to be used as a broad survey for every park in the Township.
  - Ms. Matason – good format
  - Ms. Smith – good
  - Ms. Sittler – add a line for yes/no; e.g. something not desired
  - Mr. Spoonamore – great, keep it simple
  - Mr. Moore – add fitness structures
  - Mr. Schulte – doesn’t like format; low swing (?); activity panels are not used; play structures are all inclusive of various structures, not necessary to list such structures
  - Ms. Simpson – good; likes the household and age at the beginning
  - Ms. Sulzer – likes it; add “special needs” by the age groups; add play field/court facilities (baseball, basketball, pickleball, etc.)
  - Mr. Brokloff asked if a question of how often the park would be used could be added to the demographics portion of the survey.
- It was determined that staff will fine tune the survey with the suggestions provided and present a new draft at a future meeting.
PARKS REPORTS:
(Written reports received are emailed to all members the Wednesday prior to the meeting date)

- Ms. Sulzer stated there is someone mowing and trimming around that park sign at Harris Acres. It has not been determined if this is a Township employee or resident. Ms. Kerner is looking into it.
- No parking signs and large rocks have been placed at Spring Creek Park. Enforcement and ticketing of illegally parked vehicles is also working.
- No residents have reached out to apply for a service project at Spring Creek Estates.

STAFF INFORMATIVES: None presented.

OTHER MATTERS:

- Ms. Kerner stated that Council has approved the CIP and has determined since the Spring Creek Master Plan has been completed, in order to remain consistent with other regional parks, they have decided to start the Master Plan process for Dalevue Park. Mr. Schulte stated that the master plan he developed is nearly complete and it would be undesirable to spend the park assets on the process of developing a new Master Plan when those monies could be used to complete the project.
- Mr. Moore questioned the reasoning for a Master Plan. Ms. Kerner replied that having a Master Plan in place benefits when the Township applies for grant money.
- Slab Cabin bank stabilization was also discussed and committee members should be made aware when such projects are to occur.
- Poison Hemlock was sprayed by the Public Works Crew earlier in the summer.
- It was commented that the “Bikes May Travel in Lane” posted on Pike Street in a good idea.
- Mountainside Park play equipment coming soon.

ANNOUNCEMENTS:

- Mr. Moore announced the next Parks and Recreation Committee meeting will be held at the College Township Municipal Building on Monday, September 11, 2023 at 7:00 pm, if needed.

ADJOURNMENT:
With no other matters to discuss, Mr. Spoonamore moved to adjourn. Ms. Matason seconded. Motion carried.

Meeting adjourned at 8:36 PM.

Respectfully Submitted By,

**Draft**

Sharon E. Meyers
Recording Secretary
College Township Parks and Recreation Survey

This survey has been prepared to obtain information from area residents on the type of recreation facilities you would like to see at the Park Name Park. This survey is being made available to Township residents who live near the park to determine not only the types of facilities desired but also frequency of use and the ages and interests of potential users. Any and all input is welcome. Please return the survey form to the College Township Municipal Offices at 1481 East College Avenue, State College, PA 16801 or by scanning and emailing to smeyers@collegetownship.org. Questions may be directed to Amy Kerner, College Township Public Works Director by calling 814-231-3021.

Recreation Survey

1. Number of persons in your household, by age, that may potentially use Fogleman Overlook Park

   0 – 4 years ______  5 – 12 years ______  13 – 17 years ______
   18 – 24 years ______  25 – 64 years ______  65 + years ______
   Special Needs (any age) _________

2. How often may persons in your household potentially use Fogleman Overlook Park

   _____ Very Often (daily/weekly)   _____ Somewhat Often (weekly/monthly)
   _____ Rarely (every few months)   _____ Never

3. It will be useful to have an idea of what facilities are most in demand to those in the surrounding neighborhood. Below is a list of typical park facilities/activities. Please mark all items persons in your household may be inclined to use in Fogleman Overlook Park. All play structures selected will be suitable for different age groups and will be installed to meet playground safety requirements.

College Township Parks and Recreation Committee

September 11, 2023

Centre Region Parks and Recreation Authority

August 17, 2023

Unanimously approved that “the Centre Region Parks and Recreation Authority authorizes Amendment #6 for AP Architects, LLC in an amount not to exceed $4,000.000 for the Spring Creek Education Building Phase II LEED Commissioning to prepare the Energy Model.”

Discussed a change order request from JC Orr and Sons for an adjustment to either prevailing wage or union wage (to be clarified) for contract work at Millbrook Marsh Nature Center Spring Creek Education Building Phase II and the Diane Kerly Welcome Pavilion.

Received an update on Whitehall Road Regional Park progress.

Received an update on Millbrook Marsh Nature Center Spring Creek Education Building Phase II and the Diane Kerly Welcome Pavilion.

Next scheduled meeting is September 21, 2023, 12:15 pm, Haymarket Park Pavilion

Centre Region Parks and Recreation Authority Work Session

August 17, 2023 – cancelled

Next scheduled meeting is September 21, 2023, 10:00 am, Haymarket Park Pavilion

Centre Regional Parks and Recreation Special Meeting

Next scheduled special meeting is TBD

COG Parks and Recreation Governance Special Committee

August 23, 2023

Reviewed the duties of the Committee and shared, discussed and voted upon alternative governance scenarios that seek to address and solve existing problems with the current parks governance structure.

Next scheduled meeting is September 27, 2023, 8:30 am, COG General Forum Room
**Coordination Team for Whitehall Road Regional Park and Millbrook Marsh Phase 2**

Meets every other week to discuss progress. Team consists of COG Parks and Recreation Director, COG Executive Director, COG Facilities Manager, COG Finance Director, Project Manager, a representative from COG General Forum, and CRPR Authority Chair.

**COG Finance Committee, COG Executive Committee, and General Forum** – I have been attending, via Zoom, the meetings of Finance and Executive in order to keep abreast of developments relating to Authority activities. I attend General Forum meetings when needed as they generally occur on evenings when I have an ongoing prior commitment.

**College Township Council and Planning Commission** - I am attending College Township Planning Commission and College Township Council meetings when agenda items are related to Parks and Recreation.

**Millbrook Marsh Nature Center Boardwalk Feasibility Working Group**

Next scheduled meeting is September 8, 2023, 2:00 pm, Millbrook Marsh Nature Center

**COG Parks Capital Committee (joint meeting with the Authority)**

Next scheduled meeting is October 12, 2023, 12:15 pm, COG General Forum Room

**Millbrook Marsh Nature Center Advisory Committee**

Next scheduled meeting is September 20, 2023, 4:00 pm, Spring Creek Education Building

**Special Events with Centre Region Council of Governments/Parks and Recreation Agency**

I will participate in a tour of Whitehall Road Regional Park with Finance and Facilities Committee members on September 12, 2023.

Prepared by Kathy Matason
Parks and Recreation Report

Date: Aug 2023   Parks: Nittany Orchard/Nittany Terrace/Stoney Batter

Parks Rep: S. Spoonamore

Nittany TERRACE: - Put out an ASK ME ANYTHING table on July 4th, posted it the week before. 30+ folks came by and made very favorable comments about the area parks and Nittany Terrace in particular.

MAINTENCE ISSUE: The Gavin Family (and seconded by other passing parents) asked if the access pathway could be recovered with chip stone. It is currently 2-4” LARGE gravel, and it is impossible to pass over it with strollers or kiddo-buggies and even hard to walk on without heavy boots. I agree. The path is only about 50’ long and 4’ wide, one small dump truck of chip stone covering over it would make it a much better pathway into the park. I spoke with the Sutherland’s (family who own the house with the right of way path) they agreed. Noted that most people have to push their strollers across the lawn.

OTHER NOTES from the AMA:

4 High School Students who play Rugby asked if the field at Spring Creek near Balmoral could host Rugby games. I told them to reach out to the same number for baseball/softball diamond and ask.

Several kids came by and said they really liked the play equipment, but want to know why there are no slip and slides at our parks. They noted the hill would be really good for it.

ODD CONCERN:

At the end of the Fireworks (I was in the lawn) I realized 10+ kids had climbed up ON TOP of the PICNIC SHED and were horsing about. I asked them to come down and promise to never do it again. If there is surprising or unusual loss of shingles on that shelter…we know why.

Nittany ORCHARD:  Held ASK ME ANYTHING on July 15th, posted it the week before.

One person came by and complained about Dog Droppings being left near the children's play area.

Maintenance Issues: None.
Stoney Batter: Hikes it 5 times since last meeting.

There is serious runoff issues on the main trail up Nittany. The Conservation team is aware of it. I have offered to help and bring people to the next trail repair effort.

Parking Lot is being well used and is now “known” by the regular crowd. On the weekend of July 22nd (not sure why) there was a very large group of trail runners who came to the mountain and there were 11 cars illegally parked in the no parking areas of the road, but there was plenty of space in the parking areas. I asked a couple of the illegal parkers if they were aware of the change and knew where the parking area was. They did, but gave the “we always have parked here” answer. I suggested they use the parking lot next time to avoid possible ticketing.

THE INVITATION TO FORMALLY ADD A CT MEMBER TO THE CONSERVANCY BOARD IS STILL OPEN.

Maintenance Issues: None.
College Township
Parks and Recreation Report

Date: 09/01/2023  Park Name: Oak Grove
Parks Rep: Schulte

Report

Thank you for the ongoing landscaping improvements.

Brush near the basketball court has been cut back. Thank you.

Before- After-

Maintenance Issues:

(2022-10-23 B) For the safety of the basketball players, let's try to get unobstructed space around the court. Please remove the remaining brush and weeds near the basketball court and the park property line.

(2023-08-31) Please help me find the park property corner pins. I think all of the area outlined in red is township property, but without visible corner pins, it is difficult to be sure.
(2023-08-31) Please remove the thorny weeds in the tot lot.

(2023-08-31) Please remove the dead or dying hybrid-poplar trees on the east side of the path at the upper end of the park. (Do not replace them.)

(2023-08-31) Please remove the dead tree (species unknown) near the Claremont Ave entrance. (Do not replace.)
Thorny weeds in the tot-lot playground have been treated. Stalks of the killed off weeds have been pulled and piled near the garbage can for removal at your earliest convenience. Thank you very much !!!

The hillside has been mowed to prevent brushy vegetation overgrowth. Looks good. Thank you!

**Maintenance Issues:**

(2023-08-31) A few new thorny weeds have grown in the tot-lot area since it was treated. A follow up treatment would be appropriate.

(2023-08-31) Reminder- the hillside should be mowed entirely once or twice a year to prevent being overgrown with brushy vegetation.- Ideally, before July 4th, and again in the late fall.  

[Just an FYI- winter sledding works best on areas that have been mowed short.]
To: College Township Parks & Recreation Committee  
From: Judi Sittler  
Date: July 30, 2023  
Re: Parks that have streams within the Township

Definitions:
“Parks” - can include mini parks, neighborhood parks, community parks, school parks, or large urban parks.
“Greenways” – are linear park areas that focus on passive recreation and the natural environment. These areas frequently form connections throughout the community.
“Natural Resource Areas” – are lands set aside for preservation of significant natural resources, landscapes, open space, and visual aesthetics and buffering.
“Riparian Buffer” – a vegetated area near a stream, usually forested, which helps shade and partially protect the stream from the impact of adjacent land uses. It plays a role in increasing water quality in associated streams. Rivers, and lakes, thus providing environmental benefits. With the decline of many aquatic ecosystems due to agriculture, riparian buffers have become a very common conservation practice aimed at increasing water quality and reducing pollution.

College Township Parks with streams:
Cairns Crossing [Spring Creek] – a Greenway
Gordon D. Kissinger Meadow [Slab Cabin Run] – a Natural Resource Area
Millbrook Marsh [Thompson Run, Slab Cabin Run] – a Community Park (also a Natural Resource Area because the marsh is a buffering zone that captures and slows down stormwater.)
Slab Cabin [Slab Cabin Run] – a Park (multiple uses: sledding, dog walking, stream access, picnicking)
Spring Creek Park [Spring Creek] – a Community Park
Spring Creek Estates [Spring Creek] – a Greenway
Slab Cabin Run Bike Path [Slab Cabin Run] – Bike Path

This memo is intended to raise awareness within the P&R committee related to parks/greenways/natural resource areas that contain a stream within its boundaries. The job of the representatives who oversee any of the recreational areas that include a stream should be aware that the stream and its riparian buffer zone are as important as any of the other features we are observing. In turn, the Township should be aware of the Parks Committee connection to the streams in our parks and work hand in hand to protect the water quality, fish habitat, bank stabilization, and the quality and preservation of the riparian buffer zones.

I consulted with Shane Adam, College Township GIS Specialist/Field Technician, to list things we want to be aware of along the streams that we monitor. I also asked him if he could attend one of our meetings to clarify and answer questions about riparian buffers and stream banks. To date, we do not have that visit scheduled and I will ask to have that on the agenda when he is available. Shane’s response follows:
Thank you for reaching out to me about the CT Parks and Rec. committee’s efforts to promote understanding and monitoring of healthy streams within our parks. I appreciate the opportunity to contribute to this important initiative.

While I would love to attend the next meeting to give a presentation, my current schedule is quite tight, and I regret that I won’t be able to join in person. I could be available for meetings after September. In the meantime, I’m more than willing to offer some insights and guidance that could be shared with the committee members during the next meeting.

To begin, it’s crucial for committee members to recognize the significance of healthy streams as they contribute to the overall well-being of our ecosystems. To monitor the sections of stream effectively, they should keep an eye out for various indicators:

1. **Water Quality**: Encourage members to be observant of water clarity, unusual odors, or discoloration, as these might indicate pollution or contamination.
2. **Aquatic Life**: The presence of diverse aquatic species is a sign of a healthy ecosystem. Documenting any unique or endangered species can be particularly valuable.
3. **Bank Stability**: Ensure that the stream banks are stable and not experiencing erosion. Unstable banks can lead to habitat loss and water quality issues.
4. **Riparian Buffer Areas**: Stress the importance of maintaining buffer zones along the stream. These areas serve as essential habitats and protect water quality.
5. **Human Activities**: Be vigilant about any unauthorized activities near the stream, such as tree-cutting or improper waste disposal, as these can harm the environment.

To ensure a successful monitoring process, committee members can consider the following recommendations:

1. **Training and Education**: Provide workshops or resources to educate committee members about stream health, monitoring techniques, and reporting procedures.
2. **Collaboration with Experts**: Seek guidance from environmental consultants or organizations specializing in stream health and restoration for in-depth insights and expertise.
3. **Data Collection and Documentation**: Encourage consistent data collection to monitor any changes in stream health over time. Documenting findings and observations is essential.
4. **Community Engagement**: Involve the local community in stream monitoring efforts, fostering a sense of ownership and responsibility for the parks’ natural resources.

Lastly, awareness beyond the stream is equally vital:

1. **Bank Stabilization**: Regularly inspect and maintain any existing bank stabilization structures to prevent erosion and habitat loss.
2. **Riparian Buffer Protection**: Ensure that maintenance personnel understand the significance of preserving buffer areas and refrain from disturbing them.

I hope these guidelines prove helpful for your committee’s endeavors. If there’s any specific information you require or further assistance needed, please don’t hesitate to ask. I’m more than willing to support the committee’s efforts.

Best,
Shane
